

Vibrant colors are a necessity for kids' environments, and Kidside at **Eastside Christian Church** in Anaheim, California, is no different. Here kids learn to pursue God, connect in community, and unleash compassion.

**Vibrant Christian Church** is located in Mechanicsburg, Pennsylvania. The township got its name from the settlement of mechanics who fixed covered wagons, but the real growth came from the Cumberland Valley Railroad. So, naturally, our designs for the church lent themselves to a train theme for teaching kids about the Bible in fun, creative ways.

At **Saddleback Church**, kids learn their sense of place in the story and look forward to the adventures on the path ahead, no matter their age. Rick Warren and his team are pursuing a radical redesign of their expansive children's ministry facility to create an exciting journey like no other.
